

Powerful

Meet the
newest member
of your team -
iTero® Element 2

I'm here to help you do what you do - only better. With faster processing and clearer imaging, I can help transform your digital workflow and your chairside consultations, so you can help your patients visualise their new smiles - and say "yes" to treatment.

iTero element 2

Your intuitive digital solution.

Next Generation Processor

Reduced scan processing and faster start-up time - perform a full arch scan in as little as 60 seconds*

High-Definition Visuals

Sleek and slim 21.5" monitor, 16:9 widescreen viewing format, and improved resolution for highly detailed images

Uninterrupted Scanning

Long-lasting, rechargeable battery for easy mobility from room to room without plugging in or rebooting**

Ergonomic Wand Placement

Designed with a centre-mounted wand cradle for easy ergonomics during scanning

Stunning Colour Imaging

Enhanced colour offers a more thorough look at your patients' oral health

Smarter Scanning

Improved wand touchpad is as intuitive as gesturing on your smartphone; use the touchpad to switch between scanning segments or rotate the model on screen

Visualise a better practice.

Together, we can streamline your workflow.

- Restorative and orthodontic workflows
- Optimised Invisalign® connectivity
- Visualisation tools
 - iTero TimeLapse
 - Invisalign Outcome Simulator
 - Progress Assessment
- Chairside milling integration***

*Scan times vary and depend on individual experience. Data on file at Align Technology.

**With a fully charged battery, the user can scan for 30 minutes without having to plug in for power.

***Chairside milling requires a separate piece of equipment.
